the same day a large aquarium opened to the public in Georgia, after that day commuter traffic got stuck on Chicago RR tracks, a train hit cars, at least a few critical injuries occurred. Lastly that evening on national tv, at the Bowling Green vs. Toledo college football game, a cotton tailed rabbit appeared in an end zone, & about 10 mins. later, probably at the opposite end zone (of camera angles), the offence at the 8 yd. line, near scoring, fumbled unusually about 6 yds. forward thru the center of the line, & the defense recovered. Some days before, I'd sent over a dozen letters to government authorities, predicting a series of multiple disasters in 4 days in the last wk. of Nov. '05, & my prediction realized, there were a many more than usual quantity of disasters &/or near disasters in those 4 days & one in between (the 26<sup>th</sup>). I've observed patterns of phenomena, frequency progressions, studies of the "Facts on File" library News Encyclopedia's index: Accidents & earthquakes, in the previous year, of 18+ more yrs., books on shelves... proving apocalyptic ultimatums &/or of perfecting harmony with non-violent reforms, i.e. insomnia, confusion, &/or violence-contemplation 100% remedial variable quantities of 10-20% sweet wines, &/or exercise & baths... self control, happiness, morality & prevention of violence.

Four of 15 incidents were trains colliding with cars or trucks (two: two), fatalities in each of 4, 11 were d-rls. (probably all non-fatal) Any few incidents I missed wouldn't significantly effect the statistical & obvious facts & validity of the 'matching' numerical analysis following: Two days after the Chicago by Lake Michigan collision, A d-rl. near-by, so. of Chicago not far from a river, on 11-24... then 11-26, d-rl., Scotland, + 11-26, d-rl., Laurel, MT. (at 3:22 AM)<sup>again</sup>, 2 days later; 7 mo. 8 days later (220 days), 7-2-'06, 1 d-rl. MT. + a slow non-fatal collision of 2 commuter trains, PA., from 11-24-05, + 11 days later (ts: timespan), 12-5-05, d-rl., MT. (Helena). I 'figured' (the 'stats') the time spans beyond a wk. + 4 days between each of the d-rls. + crashes from 11-24-05 to 7-2-06, + approximately exactly, beyond 98% careful numeric analysis by a poet (I can miss a number or few), of 37 time spans measured in days, I found 11 matching 'digit 11' 'factorable' (evenly divisible by 11) tss (timespans) statistically, logically, i.e. 88 days between 3-3-06 + 5-30-06, 122 days between 1-28 + 5-30, the time spans together look like: 11d, from 11-24-05; 220d., 66d., 122d., 155d., 94d., 44d., 88d., 11d., 11d., and 11:37, or ± 80% probability ratio statistically figures' from a 1:10 probability of one factor 11 matching pair of digits per time span of the 220 day sample, logically & reasonably, proof of non-human intelligences' volitional equinities, crop + biologic growth, + Abused + forced errors, but communications by those entities by numeric redundant consistencies... like a horse pawing the ground twice + whinnying for alertness + change. Similar high % proofs, over 500:1 volitional communications ratios resulted comparing 18 yrs. + beyond other disaster dates + frequencies, of 80's, 90's, 00's plane crashes + e-gks, + from Jan. 06, \*  
June '06, \* train-car collisions, b-gs.

**Proven (Above):** CONSISTENCY proves goodwill, zebra+fish noses, geometric hexagon lines & webs; Equinoxes are voluntary, clouds are consciousnesses, pets know calendars, numeric 1981s & some of the alphabet, from origins, & temporary consciousness merges... also in & of slight collision, 3-pa. commandos train. ~6 dozen pyramids built w/ language in anatomy... typically, the climate failures by the Nile & western U.S. 6/12-26-09 indicated similar 20% good & certain probabilities, the E-W tidal wave is SUMATRA: predominantly of lizard, large cat, cobra, meerkat, violent, like most fur trapping. Fur hat organizations near 2 centuries of war, each 20 yrs., 6-3-01 to 9-1-01, oddities: universal triangle, T-N-LA, ALABAMA, International weather map TV.

between MAY 12, 2006, the start of the N.E. USA's days of heavy rain & flooding.  
the huge electric power outages around Lk. Erie, U.S.; N.Y. City & Canada 8-14

Doubling precipitation excessively below  $\approx 72^{\circ}$  air conditioning globally over decades; flooding, storms, mudslides, ice age freezing trends since  $\approx$  early 4/ after 70's, droughts & blights are certain w/o air conditioning everywhere customarily, except long driving, for fundamental healthy natural warmth w/tae energies, systems established long ago, & easily confused cooling, captures, metal hair trapping & insulation, & large sausages & predator pickiness at pervasive universal energy - causes effects: d-rts, & criss-cross roads & cars or truck collisions, four, nited 'c' 2/11-22-05, 3/11-24-05, 11-26-05, 12-5-05 / 28-06-05, 3-3-07, 4-16-07; 5-30-07, 6-9-07, 6-16-07, 6-20-07, 6-27-07, 7-2-07, 8-10-07; From July 1-Aug. 8 (7-1 to 8-8),  $\approx$  5 wks., an astounding 14 to 18 matching similar pairs of  $\approx$  near-disasters w/ cusp & triplets, including adjoining 2 day E-zaks, 2 fatal lightening strikes, New Jersey & Bellings, 2x7-8, fatal plane crash, etc.

In 1 month, from 10-13-06 heavy snow in Buffalo, New York, U.S.A., There have been 4 large electric power failures, 3 in the U.S.A. & 1 in Europe - reported - strong wind & rain storms on the middle & northern U.S. coasts, Portland, Oregon 11-13-06, & each geographically & historically near metal fur trapping areas, similarly of large lizard & cat predator proximities, the war in Iraq & the previous, ~ a decade, of ICE AGE weather trends, pervasive universal energy cause & effects of SAURANS & less than 72° warmth naturally, of excess cool air conditioning over decades, like DNA parallel communications by ancient & other than human intelligences of warnings of impending blights, crop growth failures, without replacing militarization with Farming the Tropics Large SAURIAN & CAT A 2:4:2 PATTERN OF 2 PAIRS OF hunts, & civilized goods in place of munitions, Earthquake reportedly caused by significant, near before & following the 4 electric failures, 10-30-06, 11-14-06, Seattle, WA, U.S., Japan, IN JAPAN & JAPAN, 11-16-06: North Carolina, U.S., coastal, by the Wright Bros. National monument at KITTYHAWK, N.C., a TORNADO, Riegelwood, N.C., 185 miles from Kittyhawk, straightly. Recall an 802 DAY TIME SPAN, 6-3-01's EQUILATERAL TRIANGULAR electric storm pattern, southern U.S., TN., AL., LA. (100 days before 9-11-01) & 8-14-03's Electric failures in Canada & the U.S. around Lake Erie, & N.Y. City; also, An 82 d. t.s., 9-30-06 a Canadian highway bridge collapse, & a Boston's highway, near the airport, TUNNEL-ROOF COLLAPSE 7-10-06, also 11 wks. 5d. &/or 2 mo. 21 d. (82 d. t.s.) A 1:4:2 sequence, 2001, '02 & '04, of a 283 day cycle, four 28<sup>th</sup> DAY AVIATION CRASHES in 2002, then May 28th-June 28 events in 2004. A windstorm collapsed a cool ice skating rink in Birmingham, AL, U.S. 11-15-06... see the fundamental - not so obvious - ASSOCIATION in communications, of below 72° warm Air conditioning over decades of customs & the ICE AGE weather trends which have been clear & evident if objectively observed, over a decade, of international weather facts, & also particularly here between Yellowstone & G-laccer National Parks, no wild Rocky Mtns. (cold snows, cooling precipitates, but excessively, of flooding toward more Hurricanes - rains over salt H<sub>2</sub>O - & recent useless fall rain & windstorms, Trends, & of droughts & blights advancing... The 'bird flight' 185 mi., Riegelwood, to Kittyhawk, N.C., triangularly with Ahoskie, N.C. & site of the 1<sup>st</sup> of 4 incidents of multiple child disappearances, see p. 2, is also a 75.mi. distance & 150.mi.: Atlas-exactly... 11-18-2006  
(noted)

\* NOTE 1-4-2007: There's been 11 or 12 electric power failures from storms in the past less than 3 mos. & all by Western geographic-fur trapping Areas... Also Eastern, PACIFIC Typhoons & Cyclones... recall our particularly wild Montana geo. Area (globally) & the previous 2 winters very mild but little snow, low precipitation trends, yet most recently frequent but 'useless' winter rains, excess precipitation, 1990's flooding, mudslides into the 21<sup>st</sup> c., the Miss. River flooding, 1993 & twice in '05 (or '06), the 50yr. record for Hurricanes broken in 1995, & 2004 & '05's extreme Hurricane seasons, New Orleans & KATRINA, most recently closing with a few offshore, deep mid-Atlantic & far northerly paths, excess & useless rains over salt water... An August '06 blizzard in So. Africa, the U.S. Gulf Coast's tropical climate collapse into winter cooling & some below 32° days in Florida, since approximately exactly the late 1990's or early '00's... computer UPC-grocery codes, DNA & intelligences in the universe eons before humans... efficient universal energies & non-violence accumulates harmony.
